## **CARGO BASED CHARGES**

### Computation of Dues

- (1) All dues and charges on cargo shall, except as otherwise provided, be computed on the weights and measurements shown in the vessel's manifest, bill of lading or other shipping document for such cargo, but it shall be competent for the Port Authority at its own option to proceed on the basis of the tonne of 1,000 kilograms, or the cubic metre, or a kilolitre, and a fraction of these units shall be charged on a pro rata basis excepting in the case of storage.
- (2) In all cases, dues and charges shall be calculated on a gross weight or measurement and the Port Authority reserves the right at any time to demand that the goods shall be reweighed or remeasured, in the presence of an officer of the Port Authority and at the expense of the owner of the cargo.
- (3) Charges on goods enumerated hereunder shall be computed on the basis show -
  - cylindrical cargo, except otherwise stated is to be based on cubic measurement on external dimensions less twenty percent unless the weight is then greater;
  - oil and inflammable liquids in bulk (fuel lighting and lubricating) is to be charged per kilolitre
  - skins in bales are deemed to be 3 bales to the tonne.

**NOTE:**        **It is general practice to calculate charges based on the greater of weight, measurement or volume.**
