#### 4. Guest presentation - Woodside

KV gave overview of Woodside and hydrogen. MS gave overview of the H2 Perth project and the key engagement initiatives on safety, environment and community.

The presentation was followed by questions from the members as follows:

- MT asked about buffer zones, how large these were going to be, how they will be managed and how it could better serve community. He also requested more information on flora and fauna aspects. KV and MS briefly touched on these aspects with time remaining and will provide further written information to the group on these topics.

20 mins

KV/MS

10 mins

Questions

TP commented that he felt the question time remaining was not adequate. He would like more focus on potential environmental aspects and commercial perceptions of for example the jetties on the Outer Harbour.
